ANTONIO MARIONI

MATILDE SERAO STREET 29 – ASCIANO – SAN GIULIANO TERME - PISA

3384498857

a.marioni@ao-pisa.toscana.it

antoniomarioni@libero.it

Nationality

Italian

Date of birth

31 JENUARY 1965

WORKING EXPERIENCE

2000-03 I worked at the General Surgery Unit (Director Prof. Paolo Miccoli) from 02/28/2000 to July 2003.

2003-08 I worked at Day Surgery Unit from july 2003 at july 2008 and subsequently from july 2008 at Colo-Rectal Unit (Director Piero Buccianti MD).

2009 Currently I work at the General Surgery Unit, General Surgery Department (Director Piero Buccianti MD), in the University Hospital of Pisa.

2015 Referent of General Surgery at the Day Surgery UHP.

EDUCATION AND TRAINING

1991 Graduated in Medicine

1991 Professional qualification

1997 Specialized in General Surgery

1995-97 I was a member of the Surgery Department of the University of Pisa in the period 1995-1997, as a representative of the Graduate Students and Research PhD.

1998 I holds the post professional provision of technical implementation of the video recordings and computer processing of videotaped images of surgical procedure at General Surgery Unit of Surgery Department of University of Pisa (Dir. Cesare Colizzi PhD).

1999 I won the contest for the assignment of n. 2 awards of study made available by the Association of Chronic Diseases Bowel

2006 Course "Laparoscopic repair of incisional hernia" Grosseto

2007 Course "laparoscopic repair of inguinal hernia" Sassuolo-Grosseto

2010 Course "Minimally invasive surgery "single access", Torino.

**PERSONAL SKILLS AND
COMPETENCES**

LANGUEGE

ORGANIZATIONAL SKILLS AND
COMPETENCES

- 1) Course Master and tutor at 7 Course of Abdominal Wall Laparoscopic Surgery, University Hospital of Pisa, 2010-2016
- 2) Course Master and tutor at 12 Course of Colo-rectal Miniinvasive Surgery, University Hospital of Pisa, 2010-2016
- 3) Course Master and tutor at "Laparoscopic treatment of inguinal hernia", AIMS Milano.
- 4) Course Master and tutor at Course of "Laparoscopic treatment of incisional ventral hernia", AIMS Milano
- 5) Course Master and tutor live-surgery "Minimally invasive surgery of hernia: research, development and innovation. State of the art in Tuscany". University Hospital of Pisa 2012.
- 6) Course Master and tutor "live-surgery" at Course ACOI "advanced laparoscopic surgery of incisional hernias" and **training center ACOI**, 2012-2018
- 7) Course Master and tutor "live-surgery" "Minimally invasive surgery of the abdominal wall: live-surgery and focus on the experience of the surgical groups of Tuscany". University Hospital of Pisa, 2013.
- 8) Course Master and tutor and **training center Italian Society of Hernia and Abdominal Wall Surgery (ISHAWS-European Hernia Society - Italian Chapter)** 2015-2018.
- 9) **Web Delegate ISHAWS-EHS (Italian Society of Hernia and Abdominal Wall Surgery – European Hernia Society - Italian Chapter)** 2015-2018.
- 10) Member of **Groin Pain Faculty della SIA (Italian Society of Arthroscopy)** 2015-2018.

FURTHER INFORMATION

Partner SICE (Italian Society for Endoscopic Surgery) from 2010.
Partner FONCaM (Breast Carcinoma National Task Force) 1994.
Partner ACOI (Italian Association of Hospital Surgeons) 2014
Partner Italian Society of Hernia and Abdominal Wall Surgery (ISHAWS)
EHS (European Hernia Society) 2014-2018

Publications: Author and co-author of **36 publications**.

Congress: He has participated in **54 national and international congress, of which 38 as speaker**.

Consensus: He has participated:

Consensus on laparoscopic incisional hernia Napoli 2010

Consensus on Groin Pain Syndrome Milano 2016.

ATTACHMENTS

The scientific activity is documented by publications in print or in certified copy and Congress reports:

SURGICAL CASES

Currently the personal operating series performed by the 1st or 2nd Surgical Clinic (1992-1999) Department of Surgery (2000-2009) Department of General Surgery (2010-2017) 2970 includes interventions of Digestive Oncology Disease, Endocrine Surgery, Abdominal Wall Reconstruction with Open or Laparoscopic technique.

During this period, I personally performed 980 diagnostic and interventional endoscopies of the upper and lower digestive tract

Since January 2015 is referent of General Surgery at Day Surgery Unit and he performed 746 surgical procedures (70% abdominal wall surgery reconstruction, 19% proctology, 11% outpatient surgery)

A particular experience has been matured in the field of minimally invasive surgery: total laparoscopic interventions included in the series are 1500 and include surgery procedures of colorectal, liver, biliary tract, kidney, adrenal, spleen, abdominal wall, and thyroid parathyroid, proctology.

Valuable experience has been gained in the reconstructive surgery of the abdominal wall with repairs of primary and incisional hernias, which consists of about 520 total interventions from 2002 to 2018.

Since 2006, when the experience of repair began with minimally invasive technique, were performed 260 laparoscopic procedures.

As for the inguinal hernia repair consists of about 1400 primary or incisional inguinal hernia repairs from 2002 to 2018.

Since 2009, when it began the repair experience with minimally invasive technique, were performed 204 laparoscopic procedures (15 % of inguinal procedures).

In 2015 it began the experience of abdominal wall robotic surgery, were performed 11 abdominal wall incisional hernia repair and 13 inguinal hernia repair.

14 October 2018
